

BECI OUTREACH

The learned English from BECI,
200% apply through activities

BECI Language Academy guides students to improve their English ability through activities and interaction with people. The main platform for BECI students in sharing their talents in an immersion activity through the 'Outreach Program'. With this program, BECI students get to improve their practical English by being an active participant in cooperative and collaborative activities with local high schools and universities as they share their talents in their given field through lectures, presentations and /or demonstrations. With the guidance of a coach, speaking skills for negotiation and discussion, and question and answer are acquired. Recently, a 'Cooking for a Cause', a cooking class, was held with Baguio local children. Here BECI students get to showcase their traditional food, use English in their cooking class, and feed local children.
